

Arts For Little Hearts

Arts for Little Hearts represents a non-profit project which brings to life the vision of two young brothers. Any child (individual, group, school, community service), anywhere in the world, can participate in the Arts for Little Hearts project by creating a custom-made gift that will be delivered to a hospitalized child somewhere in the world. The arts can represent any handicraft (even a card) created by a child. Arts for Little Hearts knows that when creating something special for a hospitalized child that he/she has never met, the creator as well as the receiver will share a special bond of compassion, love, confidence, courage and optimism.
